Apple User Manual Macbook:

MacBook Air User Guide Alec Young, 2019-12-21 In July 2019 Apple updated the MacBook Air that was originally redesigned in October 2018. Even though there were no major updates to the MacBook Air, the enhancement led to a new butterfly keyboard which utilizes the same updated materials like the 2019 MacBook Pro, some small SSD changes, an improved display with True Tone, and a lower price tag. The MacBook Air has a T2 chip as well as a fingerprint sensor for the Touch ID that can be used instead of entering a password. This T2 chip is built for enhanced security on the MacBook Air by ensuring a secure boot process through Secure Enclave and fast data encryption with an SSD controller. The macOS Catalina, which was launched in October 2019, is the latest operating system for the Apple Mac family. The new software brought with it several new exciting features that may seem overwhelming even to existing users. Some of these features include the Screen Time division of iTunes into 3 separate apps, using the iPad as a second screen otherwise known as Sidecar, and lots more. Whether you are just buying a new Mac device or downloading the new software to your existing device, this book would help you to achieve better and faster productivity.
