Handbook of Research on Artificial Intelligence in Government Practices and Processes Saura, Jose Ramon, Debasa, Felipe, 2022-03-18 In today's global culture where the internet has established itself as a main tool of communication the global system of economy and regulations as well as data and decisions based on data analysis have become essential for public actors and institutions

Governments need to be updated and use the latest technologies to understand what society's demands are and user behavioral data which can be pulled by intelligent applications can offer tremendous insights into this. The Handbook of Research on Artificial Intelligence in Government Practices and Processes identifies definitional perspectives of behavioral data science and what its use by governments means for automation, predictability and risks to privacy and free decision making in society. Many governments can train their algorithms to work with machine learning leading to the capacity to interfere in the behavior of society and potentially achieve a change in societal behavior without society itself even being aware of it. As such, the use of artificial intelligence by governments has raised concerns about privacy and personal security issues. Covering topics such as digital democracy, data extraction techniques and political communications, this book is an essential resource for data analysts, politicians, journalists, public figures, executives, researchers, data specialists, communication specialists, digital marketers and academicians.

Innovative Methods and Technologies for Electronic Discourse Analysis Lim, Hwee Ling, 2013-08-31 With the advent of new media and Web 2.0 technologies, language and discourse have taken on new meaning and the implications of this evolution on the nature of interpersonal communication must be addressed. Innovative Methods and Technologies for Electronic Discourse Analysis highlights research applications, frameworks and theories of online communication to explore recent advances in the manipulation and shaping of meaning in electronic discourse. This essential research collection will appeal to academic research and professional audiences engaged in the design, development and distribution of effective communications technologies in educational, social and linguistic contexts.
