Advanced Learning and Teaching in Higher Education in India: A Policy-technology-capacity Enabled

Approach Pallavi Tyagi, Neha Zaidi, Balamurgan Balusamy, Celestine Iwendi, 2024-04-12 This book comprehensively covers the evolution of advanced learning pedagogy and innovative technologies like open educational resources and blended learning models. It specifically talks about the future of technology enhanced learning and how advanced technology and government policies together are trying to impact learning outcomes globally. Nowadays in a flexible learning environment technology plays a significant role in higher education systems. Both educators and students are playing prominent roles in its successful implementation. Advanced learning pedagogy by using technology has not only changed teaching procedures but has also evolved the relationship among multiple stakeholders. The content of the book is neatly segregated into four parts. Part I covers the concept and evolution of digital learning and education technology. This part examines the role of technology in higher education and proposes a toolkit for personalized learning and continuous assessment. Parts II and III creatively represent the innovative teaching techniques and learning models under advanced learning pedagogy. Chapters under parts II and III are specially designed to present the more simplistic view of various technology based advanced learning models and resources like flipped classes, gaming designs for e-learning etc. Part III of the book also extensively covers various case studies, instructor's stories of technology enabled learning experiences. Part IV focuses on the evaluation of advanced learning pedagogy and tools. It also covers the future of information in learning like formative analytics and improved learning outcomes using technology and government initiatives in the form of various future oriented education policies like the Digital Action Education Plan 2021-2027. The wide ranging content also covers the challenges of implementation of advanced learning pedagogy and offers recommendations to overcome such challenges. The book will grab the attention of the modern IT enabled instructor's fraternity and students and researchers in the area of technology and education. The book can be further used by policymakers and educational technology startups to formulate and design technology based higher education teaching policies and procedures which are indeed helpful in measuring learning outcomes.

Digital Literacies Mark Pegrum, Nicky Hockly, Gavin Dudeney, 2014-06-03 Dramatic shifts in our communication landscape have made it crucial for language teaching to go beyond print literacy and encompass the digital literacies which are increasingly central to learners' personal, social, educational and professional lives. By situating these digital literacies within a clear theoretical framework, this book provides educators and students alike with not just the background for a deeper understanding of these key 21st century skills but also the rationale for integrating these skills into classroom practice. This is the first methodology book to address not just why but also how to teach digital literacies in the English language classroom. This book provides a theoretical framework through which to categorise and prioritise digital literacies. Practical classroom activities to help learners and teachers develop digital literacies in tandem with key language

skills A thorough analysis of the pedagogical implications of developing digital literacies in teaching practice A consideration of exactly how to integrate digital literacies into the English language syllabus Suggestions for teachers on how to continue their own professional development through PLNs Personal Learning Networks and how to access teacher development opportunities online This book is ideal for English language teachers and learners of all age groups and levels academics and students researching digital literacies and anyone looking to expand their understanding of digital literacies within a teaching framework
