Asian American Playwrights A Bio Bibliographical Critical Sourcebook:

Asian American Playwrights Miles Liu, 2002-05-30 In the late nineteenth century Asian American drama made its debut with the spotlight firmly on the lives and struggles of Asians in North America rather than on the cultures and traditions of the Asian homeland Today Asian American playwrights continue to challenge the limitations of established theatrical conventions and direct popular attention toward issues and experiences that might otherwise be ignored or marginalized While Asian American literature came into full bloom in the last 25 years Asian American drama has yet to receive the kind of critical attention it warrants This reference book serves as a versatile vehicle for exploring the field of Asian American drama from its recorded conception to its present stage Included are alphabetically arranged entries for 52 Asian American dramatists of origins from India Pakistan Vietnam the Philippines Japan Korea and China Each entry includes relevant biographical information that contextualizes the works of a playwright an interpretive description of selected plays that spotlights recurring themes and plots a summary of the playwright's critical reception and a bibliography of primary and secondary works The entries are written by expert contributors and reflect the ethnic diversity of the Asian American community The volume closes with a selected general bibliography which includes anthologies scholarly studies and periodicals

Asian American Playwrights Miles Xian Liu, 2002 Listing 52 playwrights this reference work conveys the contribution Asian Americans have made to drama Asian American is intended in a broad sense including both immigrants and the native born and representing people with origins in Asia itself the Pacific islands and the Indian subcontinent Each entry features a brief biography a list of major works and themes a discussion of the writer's critical reception and a bibliography The contributors include librarians as well as scholars of literature theater and Asian studies Annotation copyrighted by Book News Inc Portland OR

Asian American Novelists Emmanuel S. Nelson, 2000-02-28 As a distinct area of literary study Asian American literature now enjoys a level of critical recognition that was unimaginable when academic interest in the field began modestly some 25 years ago Part of this recognition stems from the increasing contributions of Asian American novelists whose works continue to capture growing levels of popular attention By the early 1970s anthologies of creative writing by Asian Americans began to appear and there are now almost two dozen of them Since then numerous Asian American writers such as Amy Tan Michael Ondaatje and Bharati Mukherjee have gained considerable critical and commercial success The publication of this reference work reflects the new academic status of Asian American literature Included are alphabetically arranged entries for 70 Asian American novelists Since the historical and current experiences of Asians in Canada and the United States are substantially similar the volume covers authors from both countries While the majority of the writers profiled in the volume have East Asian backgrounds some have South Asian or West Asian origins Each entry is written by an expert contributor and provides a short biography a discussion of major works and themes a summary of the novelist's critical reception and separate bibliographies of primary and secondary sources The volume

concludes with a selected general bibliography *The Columbia Guide to Asian American Literature Since 1945* Guiyou Huang, 2006-08-08 *The Columbia Guide to Asian American Literature Since 1945* *Women's Studies* Linda Krikos, Cindy Ingold, 2004-08-30 This truly monumental work maps the literature of women's studies covering thousands of titles and Web sites in 19 subject areas published between 1985 and 1999. Intended as a reference and collection development tool, this bibliography provides a guide for women's studies information for each title along with a detailed, often evaluative review. The annotations summarize each work's content, its importance or contribution to women's studies, and its relationship to other titles on the subject. Core titles and titles that are out of print are noted, and reviews indicate which titles are appropriate as texts or supplemental texts. This definitive guide to the literature of women's studies is a must purchase for academic libraries that support women's studies programs, and it is a useful addition to any academic or public library that endeavors to represent the field. A team of subject specialists has taken on the immense task of documenting publications in the area of women's studies in the last decades of the 20th century. The result is this truly monumental work which maps the field, covering thousands of titles and Web sites in 19 subject areas published between 1985 and 1999. Intended as a reference and collection development tool, this bibliography provides a guide for women's studies information for each title along with a detailed, often evaluative review.
