Asian Cultural Traditions:

Asian Cultural Traditions Carolyn Brown Heinz, Jeremy A. Murray, 2018-05-30 The Second Edition of Asian Cultural Traditions expands our understanding of the bewildering diversity that has existed and continues to exist in the cultures of South Asia East Asia and Southeast Asia In a single volume the authors pull together some of the major cultural strands by which people in Asian societies have organized their collective life and made their lives meaningful With new sections on Central Asia Islam Korea and Insular Southeast Asia this first survey of its kind draws on multiple disciplines to contextualize the interplay of culture historical events language and geography to promote better understanding of a realm often misunderstood by Westerners The skillful synthesis of a vast amount of information boxed items featuring popular culture or current events abundant in text illustrations and vivid color plates make Asian Cultural Traditions 2 E an outstanding introduction to Asian cultures The Second Edition welcomes the editorial collaboration of Jeremy Murray and is sure to have continued broad classroom appeal The Dialogue of Cultural Traditions William Sweet, 2008 **Asian Americans** Laura Uba, 2003-04-07 This widely adopted text synthesizes an extensive body of research on Asian American personality development identity and mental health Uba focuses on how ethnocultural factors interact with minority group status to shape the experiences of members of diverse Asian American groups Cultural values and norms shared by many Asian Americans are examined and common sources of stress described including racial discrimination and immigrant and refugee experiences Rates of mental health problems in Asian American communities are reviewed as are predictors and manifestations of specific disorders The volume also explores patterns in usage of available mental health services and considers ways that service delivery models might be adapted to better meet the needs of Asian American clients

Frederick Koon-Shing Leung, Klaus-D. Graf, Francis J. Lopez-Real, 2006-08-02 The idea of the ICMI Study 13 is outlined as follows Education in any social environment is influenced in many ways by the traditions of these environments This study brings together leading experts to research and report on mathematics education in a global context Mathematics education faces a split phenomenon of difference and correspondence A study attempting a comparison between mathematics education in different traditions will be helpful to understanding this phenomenon *Southeast Asian Culture and Heritage in a Globalising World* Rahil Ismail, 2016-04-01 Southeast Asia has in recent years become a crossroads of cultures with high levels of ethnic pluralism not only between countries sub regions and urban areas but also at the local levels of community and neighbourhood Illustrated by a series of international case studies this book demonstrates how the forces of post colonialism in their various manifestations are accelerating social change and creating new and imagined communities some of which are potentially disruptive and which may well threaten the longer term sustainability of the region Interdisciplinary in approach this book brings together geographers historians anthropologists architects education specialists planners and

Excess and Masculinity in Asian Cultural Productions Kwai-Cheung Lo, 2010-08-04 In *Excess and Masculinity in Asian Cultural Productions* Kwai Cheung Lo explores the excesses associated with the phenomenal economic growth in East Asia including surplus capital environmental waste and the unbalanced ratio of men to women in the region connecting the production of capitalist excess to the production of new forms of transnational Asian masculinity Lo draws on Lacanian psychoanalysis and Marxist ideas as well as gender theory in his examination of East Asian cultural products such as religious and parenting books transgender literary fantasies travel writing gangster movies female action heroes and online games Through this analysis Lo argues that the excess of Asia s masculine modernization throws into relief the internal inconsistencies of capitalism itself posing new challenges to the order of global capitalism and suggesting new possible configurations of global modernity

Landscape Ecology in Asian Cultures Sun-Kee Hong, Jianguo Wu, Jae-Eun Kim, Nobukazu Nakagoshi, 2010-12-25 Cultural landscapes are a product of the interactions between humans and natural settings They are landscapes and seascapes that are shaped by human history and land use Socioeconomic processes especially but also environmental changes and natural disturbances are some of the forces that make up landscape dynamics To understand and manage such complex landscapes interdisciplinary and transdisciplinary approaches are necessary emphasizing the integration of natural and social sciences and considering multiple landscape functions The spatial patterns of Asian landscapes are strongly related to human activities and their impacts Anthropogenic patterns and processes have created numerous traditional

cultural landscapes throughout the region and understanding them requires indigenous knowledge Cultural landscape ecology from a uniquely Asian perspective is explored in this book as are the management of landscapes and land use policies Human dominated landscapes with long traditions such as those described herein provide useful information for all ecologists not only in Asia to better understand the human environmental relationship and landscape sustainability
