

A Guide to Understanding and Enjoying the Works of Shakespeare

Asimov's Guide to Shakespeare

Isaac Asimov

Asimov Shakespeare

Jim Casey, Brandon Christopher

Asimov Shakespeare:

Asimov's Guide to Shakespeare Isaac Asimov, 1978 Shakespeare's genius is marked by his rare ability to appeal to theatergoers of all types and all levels of education. But for most modern folks the Greek and Roman mythology and history let alone the history of England and the geography of sixteenth century Europe that his works are laden with are hardly within our grasp. Isaac Asimov comes to making obscure issues clear to the layperson. He selects key passages from 38 of the great bard's plays plus two of his narrative poems and with the help of beautifully rendered maps and figures illuminates us about their historical and mythological background. *Asimov's Guide to Shakespeare* Isaac Asimov, 1991 Shakespeare and Comics Jim Casey, Brandon Christopher, 2024-08-22 From their inception low culture comics have intersected with the high culture of Shakespeare. This is the first book length collection dedicated entirely to the exploration of this collision. Its chapters illuminate the ways in which different texts, time periods, politics, authors, media approaches, and forms interact. Ranging from Classic Comics to Marvel from tebeo to manga from independent to mainstream, comics texts explored include Y The Last Man, Neil Gaiman and Charles Vess's A Midsummer Night's Dream, The Sandman, 19 The League of Extraordinary Gentlemen, I Am Alfonso Jones, Marvel 1602, Doom 2099, and manga adaptations of The Tempest and Macbeth among many others. As comic books and their big screen progeny dominate mainstream popular culture, the association of Shakespeare with comics offers creators and critics tools with which to interrogate the place of Shakespeare within the English and global literary and cultural traditions. *Shakespeare and Comics* argues that at a moment when the reassessment and reimagining of literary canons has become more urgent than ever, thinking about Shakespeare through the lens of comics invites us to imagine a literary and cultural landscape in which so called great works exist alongside and in equal conversation with marginalized writers, topics, and forms. Reclamations of Shakespeare, 2021-11-08 **Shakespeare and Science Fiction** Sarah Annes Brown, 2021-11-16 In *Shakespeare and Science Fiction*, Sarah Annes Brown investigates why so many science fiction writers have turned to Shakespeare when imagining humanity's future. He and his works become a kind of touchstone for the species in much science fiction, both transcending and exemplifying what it means to be human. Writers have used Shakespeare in a range of often contradictory ways. He is associated with freedom and with tyranny, with optimistic visions of space exploration and with the complete destruction of the human race. His works have been invoked to justify the existence of humanity but have also frequently been coopted for their own purposes by alien life forms or artificial intelligences. *Shakespeare and Science Fiction* is the first extended study of Shakespeare's influence on the genre. It draws on over a hundred works across different science fiction media, identifying recurring patterns and telling contradictions in the way science fiction engages with Shakespeare. It includes discussions of time travel, alternate history, dystopias, space opera, posthuman identity, and post-apocalyptic fiction. Shakespeare and the Stars Priscilla Costello, 2016-03-15 To celebrate the 400th anniversary of Shakespeare's death, this book offers fresh and exciting insights into the ever popular works of the

world's greatest playwright. It specifically highlights Shakespeare's use of the archetypal language of astrological symbolism in both obvious and subtle ways. Such references would have been commonly known in Shakespeare's time but their deeper significance is lost to modern day playgoers and readers. The first half of the book describes the Elizabethan worldview and how the seven known planets were considered an integral part of the cosmos and instrumental in shaping human character. The second half of the book examines six of Shakespeare's best loved plays in the light of astrological symbolism showing how they are entirely keyed to a specific zodiacal sign and its associated or ruling planet. The chosen plays are A Midsummer Night's Dream, Romeo and Juliet, The Merchant of Venice, Macbeth, The Tempest, and King Lear. Each chapter incorporates information and examples from astrological tradition, classical and Renaissance philosophy, Greek and Roman mythology, esoteric wisdom, modern psychology, especially that of C. G. Jung, and great literature. Thoroughly researched and well illustrated, this book illuminates the plays from a fresh perspective that will deepen and profoundly transform how we understand them.

Asimov's guide to Shakespeare Isaac Asimov, 1970

A Lifetime with Shakespeare Paul Barry, 2014-01-10

Written by the only American to direct and fight choreograph all of Shakespeare's plays, this text represents an expert and practical guide to the Bard's oeuvre. From the Henry VI plays through The Tempest, each play is explored in its full theatrical complexity with particular attention paid to directorial and acting challenges, character quirks and development, and the particularities of Shakespearean language. Directing successes are recounted, but the failures are not shied away from, making this work indispensable for anyone interested in producing plays by Shakespeare.

Harold Bloom's Shakespeare C. Desmet, Robert Sawyer, 2016-09-23

Harold Bloom's Shakespeare examines the sources and impact of Bloom's Shakespearean criticism. Through focused and sustained study of this writer and his best-selling book, this collection of essays addresses a wide range of issues pertinent to both general readers and university classes: the cultural role of Shakespeare and of a new secular humanism addressed to general readers and audiences; the author as literary origin; the persistence of character as a category of literary appreciation; and the influence of Shakespeare within the Anglo-American educational system. Together, the essays reflect on the ethics of literary theory and criticism.

Shakespeare and Politics Bruce E. Altschuler, Michael A. Genovese, 2015-11-17

William Shakespeare more than any other author was able to capture the essence of human nature in all its manifestations. His political plays offer enduring insights into our humanity, our vanity, our noble and baser drives, what makes us great and what makes us loathsome. He tells us about ourselves and about our world. This volume gleans valuable lessons from the writings of William Shakespeare and applies them to contemporary politics. Original chapters covering over a dozen different plays take up perennial political themes including power and leadership, corruption and virtue, war and peace, evil and liberty, persuasion and polarization, and empire and global overreach.

Features of the text

Unveiling the Magic of Words: A Overview of "**Asimov Shakespeare**"

In a world defined by information and interconnectivity, the enchanting power of words has acquired unparalleled significance. Their power to kindle emotions, provoke contemplation, and ignite transformative change is truly awe-inspiring.
