Aspects Of The Theory Of Syntax

Marcel A. Müller

Aspects Of The Theory Of Syntax:

Aspects of the Theory of Syntax Noam Chomsky, 1969-03-15 Chomsky proposes a reformulation of the theory of transformational generative grammar that takes recent developments in the descriptive analysis of particular languages into account Beginning in the mid fifties and emanating largely from MIT an approach was developed to linguistic theory and to the study of the structure of particular languages that diverges in many respects from modern linguistics Although this approach is connected to the traditional study of languages it differs enough in its specific conclusions about the structure and in its specific conclusions about the structure of language to warrant a name generative grammar Various deficiencies have been discovered in the first attempts to formulate a theory of transformational generative grammar and in the descriptive analysis of particular languages that motivated these formulations At the same time it has become apparent that these formulations can be extended and deepened The major purpose of this book is to review these developments and to propose a reformulation of the theory of transformational generative grammar that takes them into account The emphasis in this study is syntax semantic and phonological aspects of the language structure are discussed only insofar as they bear on syntactic theory Aspects of the Theory of Syntax, 50th Anniversary Edition Noam Chomsky, 2014-12-26 The fiftieth anniversary edition of a landmark work in generative grammar that continues to be influential with a new preface by the author Noam Chomsky's *Aspects of the Theory of Syntax* published in 1965 was a landmark work in generative grammar that introduced certain technical innovations still drawn upon in contemporary work The fiftieth anniversary edition of this influential book includes a new preface by the author that identifies proposals that seem to be of lasting significance reviews changes and improvements in the formulation and implementation of basic ideas and addresses some of the controversies that arose over the general framework Beginning in the mid fifties and emanating largely from MIT linguists developed an approach to linguistic theory and to the study of the structure of particular languages that diverged in many respects from conventional modern linguistics Although the new approach was connected to the traditional study of languages it differed enough in its specific conclusions about the structure of language to warrant a name generative grammar Various deficiencies were discovered in the first attempts to formulate a theory of transformational generative grammar and in the descriptive analysis of particular languages that motivated these formulations At the same time it became apparent that these formulations can be extended and deepened In this book Chomsky reviews these developments and proposes a reformulation of the theory of transformational generative grammar that takes them into account The emphasis in this study is syntax semantic and phonological aspects of the language structure are discussed only insofar as they bear on syntactic theory **Aspects of the Theory of Syntax** Noam Chomsky, 1969 Aspects of the Theory of Syntax Chomsky Noam, 1995 *Aspects of the Theory of Syntax* Noam Chomsky (Linguist, United States), 1973 **Linguistics from a Conceptual Viewpoint (aspects of Aspects of a Theory Or Syntax).** ,1969 Some of the assertions made by Chomsky in *Aspects of the*

Theory of Syntax are considered In particular the notion of a competence model in linguistics is criticized Formal postulates for a conceptually based linguistic theory are presented Author Aspects of the Theory of Syntax Noam Chomsky,1976

The Oxford Dictionary of English Grammar Sylvia Chalker,E. S. C. Weiner,1998 English grammar has changed a great deal since the beginning of the Twentieth Century and it is a subject that can provide a complex minefield of uncertainties within the language This accessible and comprehensive dictionary comes to the aid of both the general reader and the student or teacher offering straightforward and immediate A Z access to 1 000 grammatical terms and their meanings All the currently accepted terms of grammar are included as well as older traditional names controversial new coinages and items from the study of other languages Concise definitions of the wider subject of linguistics including phonetics and transformational grammar are accompanied by examples of language in use and frequent quotations from existing works on grammar Context Counts Robin Tolmach Lakoff,2017-02-24 Context Counts assembles for the first time the work of pre eminent linguist Robin Tolmach Lakoff A career that spans some forty years Lakoff remains one of the most influential linguists of the 20th century The early papers show the genesis of Lakoff s inquiry into the relationship of language and social power ideas later codified in the groundbreaking Language and Woman s Place and Talking Power The late papers reflect her continued exposition of power dynamics beyond gender that are established and represented in language This volume offers a retrospective analysis of Lakoff s work with each paper preceded by an introduction from a prominent linguist in the field including both contemporaries and students of Lakoff s work and further Lakoff s own conversation with these responses This engaging and at times moving reevaluation pays homage to Lakoff s far reaching influence upon linguistics while also serving as an unusual form of autobiography revealing the decades long evolution of a scholarly career **The Oxford Dictionary of English Grammar** Bas Aarts,Sylvia Chalker,Edmund Weiner,2014-01-16 The Oxford Dictionary of English Grammar is a straightforward and accessible A Z guide to the diverse and often complex terminology of English grammar It contains over 1 600 entries with clear and concise definitions enhanced by numerous example sentences as well as relevant quotations from the scholarly literature of the field This second edition is written and edited by Professor Bas Aarts of University College London writer of the acclaimed Oxford Modern English Grammar It has been fully revised and updated with particular attention paid to refreshing the example sentences included within the text There are over 150 new entries that cover current terminology which has arisen since the publication of the first edition and there are also new entries on the most important English grammars published since the start of the 20th century Hundreds of new cross references enhance the user friendly nature of the text and the list of works cited has been thoroughly updated to reflect the current state of the field A short appendix of web links has been added All in all this Dictionary is an invaluable guide to English grammar for all students and teachers of the subject as well as all those with an informed interest in the English language
