Assessing Social Impact Development Projects:

Social Impact Assessment Reidar Kvam, 2018-06-01 This note provides an overview of good practice standards in Social Impact Assessment SIA. It has been prepared by the Inter American Development Bank IDB to provide guidance to practitioners and decision makers. By applying the approach presented in this note, it is expected that the quality consistency and operational relevance of SIAs will improve. SIA facilitates the systematic integration of social issues in the planning and implementation of projects. It improves the quality and sustainability of projects, supports and strengthens national requirements, and enhances project acceptance and local ownership. The SIA helps to identify and manage potential adverse social impacts a project may cause or contribute to and to maximize benefits to local communities and other groups.

Assessing the Social Impact of Development Projects Hari Mohan Mathur, 2015-12-16 This book shows how social impact assessment SIA, which emerged barely five decades ago as a way to anticipate and manage potentially negative social impacts of building dams, power stations, urban infrastructure, highways, industries, mining, and other development projects, is now widely in use as a planning tool, especially in developed countries. Although SIA has still not gained much acceptance among development planners in Asia, the situation is gradually changing. In India, SIA is initially mandated as a policy guideline; in 2007, it is now a legal requirement. SIA in China has also recently become obligatory for certain types of development projects. Bangladesh, Laos, Nepal, Pakistan, and Sri Lanka are other Asian countries that provide examples from a variety of externally funded projects illustrating the use of social impact analysis in project planning to improve development outcomes. With contributions from an array of leading experts, this book is a valuable resource on SIA indispensable for policymakers, planners, and practitioners in government, international development agencies, private sector, industry, private banks, consultants, teachers, researchers, and students of social sciences and development studies, also NGOs everywhere, not in Asia alone.

Assessing Social Impact of Social Enterprises Cecilia Grieco, 2015-03-05 This book explores the diversity of Social Impact Assessment SIA models and outlines a self-assessment on models to support social entrepreneurs. The chapters trace the concept and origins of social entrepreneurship and elicit current implementation of SIA models by social enterprises. The comprehensive review of over seventy-five SIA models will be especially useful for social entrepreneurs and researchers.

Social Impact Assessment And Monitoring Michael J Carley, Eduardo Bustelo, 2019-05-28 This systematic critical review of more than 600 recent publications in social impact assessment SIA and related fields is based on the authors' belief that SIA is more than an analytical technique; it is also a logical and timely response to our ever-growing need for more and better information to facilitate decision making in an increasingly complex world.
