Business Advantage is based on a unique syllabus that combines current business theory, business in practice and business skills – all presented using authentic, expert input. The course contains specific business-related outcomes, making the material highly relevant and engaging.

The **business theory** lessons of the Advanced Student's Book contain input from leading business organisations, including:

- Cambridge Judge Business School, University of Cambridge
- ESSEC Business School, France
- Stanford University

The **business practice** lessons contain case studies on a wide range of companies, organisations and industry sectors, such as:

- Alibaba.com
- Rakuten
- Dyson
- NAFTA

The **business skills** lessons contain authentic content from real business meetings that will help improve learners' skills in areas such as presentations, negotiations, meetings and relationship-building.

In addition, there are **business writing** sections which will enable learners to produce a variety of effective written business communications.

Business Advantage is informed by the Cambridge Business Corpus and the Cambridge and Nottingham Spoken Business English Corpus – both part of the Cambridge English Corpus, a multi-billion word collection of real spoken and written English. It is the first business course to benefit from a spoken business English corpus, further guaranteeing that the language learnt is both natural and up-to-date.

The Student's Book comes with a **free DVD** of video case studies to watch after every two units. These are accompanied by free worksheets available on the **Business Advantage** website:
