Timothy Spaulding, 2005 The slave experience was a defining one in American history and not surprisingly has been a significant and powerful trope in African American literature In Re Forming the Past A Timothy Spaulding examines contemporary revisions of slave narratives that use elements of the fantastic to redefine the historical and literary constructions of American slavery In their rejection of mimetic representation and traditional historiography postmodern slave narratives such as Ishmael Reed s Flight to Canada Octavia Butler s Kindred Toni Morrison s Beloved Charles Johnson s Ox Herding Tale and Middle Passage Jewelle Gomez s The Gilda Stories and Samuel Delaney s Stars in My Pocket like Grains of Sand set out to counter the usual slave narrative s reliance on realism and objectivity by creating alternative histories based on subjective fantastic and non realistic representations of slavery As these texts critique traditional conceptions of history identity and aesthetic form they simultaneously re invest these concepts with a political agency that harkens back to the original project of the 19th century slave narratives In their rejection of mimetic representation and traditional historiography Spaulding contextualizes postmodern slave narrative By addressing both literary and popular African American texts Re Forming the Past expands discussions of both the African American literary tradition and postmodern culture

Speculative Orientalism: Asian Religions in New Wave Science Fiction Sang-Keun Yoo, 2025-08-21 Examining the works of prominent New Wave science fiction authors from the 1950 1960s Sang Keun Yoo highlights the underexplored connection between American science fiction and Asian religions such as Taoism

Buddhism and Hinduism The book considers how the major world wars of the 20th century Second World War the Cold War and the Vietnam War repositioned Asian culture in relation to the science fiction genre in the period Underpinning this study Sang Keun Yoo argues that Speculative Orientalism emerged in American science fiction during the 1950s and 60s This concept adopted various aspects of Asian religions to envision alternative worlds unburdened by the constraints of colonialism totalitarianism racism and sexism present in contemporary American society Bringing fresh perspectives to the works of William S Burroughs Philip K Dick Ursula K Le Guin and Samuel R Delany this book offers an insightful examination of the role of Asian religions in American science fiction and their impact on the genre s history

Science Fiction Roger Luckhurst, 2005-05-06 In this new and timely cultural history of science fiction Roger Luckhurst examines the genre from its origins in the late nineteenth century to its latest manifestations The book introduces and explicates major works of science fiction literature by placing them in a series of contexts using the history of science and technology political and economic history and cultural theory to develop the means for understanding the unique qualities of the genre Luckhurst reads science fiction as a literature of modernity His astute analysis examines how the genre provides a constantly modulating record of how human embodiment is transformed by scientific and technological change and how the very sense of self is imaginatively recomposed in popular fictions that range from utopian possibility to Gothic terror This highly readable study charts the overlapping yet distinct histories of British and American science fiction with commentary on the central authors magazines movements and texts from 1880 to the present day It will be an invaluable guide and resource for all students taking courses on science fiction technoculture and popular literature but will equally be fascinating for anyone who has ever enjoyed a science fiction book
