Asian Development Experience Vol. 2 Yasutani Shimomura, 2004-01-19 This volume investigates the missing link the complicated realities of the relations between governance and development through case studies of ASEAN countries Its main objective is to explore a theoretical framework to overcoming the limitations of mainstream approaches by employing case studies on decentralization crisis management corporate governance and foreign aid management of both public and private entities From the beginning of the 1990s onwards the international aid community has increasingly stressed that good governance together with democracy and protection of basic human rights is indispensable for sustainable economic development The terms however are complex broad and arguable They largely refer to discipline of government institutions and the capacity of the public sector While a wide variety of empirical studies has been done on the relations between good governance and development it is still unclear how the differences in governance influence development performance in a real world

Asian Development Experience Vol 3 Ryokichi Hirono, 2003-08-01 As ASEAN Vision 2020 proclaims the members of ASEAN have achieved remarkable success in economic growth stability and poverty reduction over the past decades There are however still diverse debates as to the factors which contributed to the success with no conclusive assessment This volume reviews the domestic reforms effectively introduced by ASEAN members after the 1997 financial crisis and what could be done to accelerate such reforms With the entry of the 4 new members into ASEAN possible measures to strengthen both intra and extra ASEAN regional cooperation frameworks are sought so that the 10 ASEAN members can make a smooth economic and social transformation to tackle globalization and accommodate the two highly competitive giant economies China and India The study also seeks to identify what could be the role of Japan in promoting its economic relations with the ASEAN 10 under the ongoing framework of the WTO and the ASEAN Plus Three in the light of the current trend towards greater regionalism in Europe and the Americas

Asian Development William E. James,Seiji Naya,Gerald M. Meier,1989 While the world s attention has been focused on the spectacular economic success of Japan and Korea the less developed countries of Asia have often been neglected Asian Development closes the gap In nontechnical style and with minimal mathematics it presents an in depth perspective on the economic development of fourteen countries in East Southeast and South Asia Asian Development is mainly a story of success Though some problems remain Asian countries have shown remarkable resilience in responding to sharp changes in the international economy oil shocks world recession and inflation exchange rate and interest rate fluctuations and rapid technological change The authors conclude that their ability to adjust to changing external conditions is closely related to intelligent governmental policies Looking back they comment In the past growth of the United States and Japan pulled up the growth rates of the smaller economies in the region Looking forward they predict In the future increasingly it will be the growth of the Asian developing countries that acts as a catalyst to growth in the more advanced economies

Governance Innovations in the Asia-Pacific Region Gambhir Bhatta,Joaquin L. Gonzalez III,2019-01-15 Published in 1998 The debate on what constitutes good governance and more importantly how to attain it is not a new issue The elusive and pluralistic nature of governance ensures that much more needs to be studied about the specific incidence of good governance before a unifying theme on how exactly to develop a universal framework of application of governance can be finalized It is within this context that this book seeks to fill a vacuum in the theory practice dichotomy that it argues has dominated the debate on governance so far

European Social Model Assar Lindbeck,2008-06 Developing countries esp the least developed ones have more to learn from social policies in Europe during the early 20th cent than from the elaborate welfare state arrangements after WW2 In addition to macro economic growth and stability the main ambitions must be to fight human deprivation incl illiteracy malnutrition and poor access to

water and sanitation in some cases also weak incompetent and or corrupt governments Informal systems in the fields of transfers and social services must not be destroyed when developing countries embark on more formal systems The European experience also warns against the creation of social systems that are so generous that disincentives and receding social norms distort the nat economy
