## **Asian Regionalism Cornell East Asia Series:**

**Asian Regionalism** Peter J. Katzenstein, 2000 Regionalism is of growing relevance to the political economy of Asia Pacific In the wake of the Asian financial crisis this timely volume investigates in four different chapters the dynamics of Asian regionalism during the 1980s and 1990s Specifically it focuses on Japanese and Chinese business networks in Northeast and Southeast Asia and the effects of economic monetary and financial policies on regional cooperation Asian regionalism is an important factor that both complements and shapes corporate strategies and government policies in a globalizing economy *Japan and East Asian Regionalism* S. Javed Maswood, 2012-12-06 This book studies specific regional issues and problems exploring recent related political developments in Japan and how these might impact on future foreign policy priorities and objectives The expert body of contributors consider issues such as the nexus between domestic politics and foreign policy environmental aid and management human rights and democracy and conflict management **Beyond Japan** Peter J. Katzenstein, Takashi Shiraishi, 2018-07-05 Have Japan's relative economic decline and China's rapid ascent altered the dynamics of Asian regionalism Peter Katzenstein and Takashi Shiraishi the editors of *Network Power* one of the most comprehensive volumes on East Asian regionalism in the 1990s present here an impressive new collection that brings the reader up to date This book argues that East Asia's regional dynamics are no longer the result of a simple extension of any one national model While Japanese institutional structures and political practices remain critically important the new East Asia now under construction is more than and different from the sum of its various national parts At the outset of a new century the interplay of Japanese factors with Chinese American and other national influences is producing a distinctively new East Asian region East Asian Regionalism Christopher M. Dent, 2016-06-02 East Asia is one of the world's most dynamic and diverse regions and is also becoming an increasingly coherent region through the interplay of various integrative economic political and socio cultural processes Fully updated and revised throughout this new edition explores the various ways in which East Asian regionalism continues to deepen The second edition has been expanded to incorporate coverage of significant issues that have emerged in recent years including Growing tensions in the region over maritime territory and historical issues Competing regional free trade agreement negotiations The impact of the global financial crisis on financial co operation and engagement with global governance Obama's pivot to Asia and developments in US relations with East Asia The influence of new technology and social media on micro level regional relations The growing importance of new diplomacy issues such as energy security climate change food security and international migration Key pedagogical features include end of chapter study questions case studies that discuss topical issues with study questions also provided useful tables and figures which illustrate key regional trends in East Asia Extensive summary conclusions covering the chapter's main findings from different international political economy perspectives East Asian Regionalism is an essential text for courses on East Asian regionalism Asian politics and Asian economics The Resurgence of East Asia Giovanni

Arrighi, Takeshi Hamashita, Mark Selden, 2004-02-24 Examines the rise of East Asia as one of the world's economic power centres from three temporal perspectives 500 years 150 years and 50 years each denoting an epoch in regional and world history and providing a vantage point against which to

**A World of Regions** Peter J. Katzenstein, 2015-05-01 Observing the dramatic shift in world politics since the end of the Cold War Peter J. Katzenstein argues that regions have become critical to contemporary world politics This view is in stark contrast to those who focus on the purportedly stubborn persistence of the nation state or the inevitable march of globalization In detailed studies of technology and foreign investment domestic and international security and cultural diplomacy and popular culture Katzenstein examines the changing regional dynamics of Europe and Asia which are linked to the United States through Germany and Japan Regions Katzenstein contends are interacting closely with an American imperium that combines territorial and non territorial powers Katzenstein argues that globalization and internationalization create open or porous regions Regions may provide solutions to the contradictions between states and markets security and insecurity nationalism and cosmopolitanism Embedded in the American imperium regions are now central to world politics

**New Regionalism in the Global Political Economy** Shaun Breslin, Christopher W. Hughes, Nicola Phillips, Ben Rosamond, 2002-08-22 Featuring a notable list of international contributors this book presents a systematic and stimulating discussion on regionalism covering topical issues such as recent financial crises enlargement within EU and the post Lome regionalism of Africa

**The Global Economic Crisis and East Asian Regionalism** Saori Katada, 2013-09-13 Regional cooperation in East Asia on various issue areas such as emergency liquidity mechanisms in finance the exponential growth of free trade agreements and policy coordination on the environment and public health developed rapidly after the Asian Financial Crisis A decade later the global financial crisis offered a new opportunity for the nascent regional cooperation mechanisms to acquire new depth and meaning this time however in a very different context due to the unfaltering rise of China How have inter state cooperation mechanisms which were devised originally to deal with the problems of the past crisis fared in the recent global economic turbulence Can regional integration effectively insulate East Asia from the vagaries of the international market Should East Asian nations heed the call for regionalism or globalism This volume not only offers one of the first assessments of how the global economic crisis has affected the prospects for regional integration in East Asia but it also addresses a number of long standing debates of interest to East Asian specialists economists and policymakers Are crises catalysts for revamping developmental models Do they provide solid foundations for regional solidarity and integration Can they help catapult countries into the global limelight This book was originally published as a special issue of The Pacific Review

**Regionalism, Economic Integration and Security in Asia** Jehoon Park, T. J. Pempel, Heungchong Kim, 2011-01-01 The prospects and value of economic integration and regionalism in Asia are increasingly evident in what could turn out to be the Asian Century It is within this context that this important book explores the critical economic issues security concerns and political themes pertinent to Asia in general

and to East Asia in particular The book features contributions by both Asian and Western scholars who take an interdisciplinary approach encompassing economics political science and culture They address various issues including the application of European experiences to Asia and blend regional country perspectives with broader external views from Russia and the US In conclusion the book suggests a tentative roadmap and future directions for an Asian community asserting the importance of cultural and value studies This objective analysis of Asian regionalism explores perspectives from both within and outside the region As such it will prove a fascinating read for academics and researchers practitioners and policy makers in a wide variety of fields including Asian studies economics public policy political economy international relations and regional science

China's Rise and Regional Integration in East Asia Yong Wook Lee, Key-young Son, 2014-03-05 With featuring far reaching diversities and disparities among the regional states in their political economic and social systems and cultural and religious orientations East Asia is a microcosm of international society at large Nevertheless there are unique dynamics unfolding in East Asia at the turn of the twenty first century namely the rise of China as a contender for regional and global hegemony and a set of collective initiatives to integrate the region into a harmonious community This book provides new arguments on China's rise and the transformation of East Asia and analyzes the foreign policy behavior of the regional states and relations among them In doing so the contributors show why and how China is rising and how China's rise shapes the emerging regional structures and institutions in East Asia Furthermore given the East Asian context where the world's second and third largest economies coexist with much smaller states and with China's ascendancy likely to continue this book challenges the pervasive dichotomy of hegemony and community This allows for a fuller and more nuanced account of China's role and the shifting regional policies in East Asia in which hegemonic cooperation does not necessarily lead to a hegemonic form of regional order Presenting strategic political economic and historical perspectives on China's changing role in the region and the development of regionalism China's Rise and Regional Integration in East Asia will be of great interest to students and scholars of Chinese politics Asian politics international relations and regionalism
