Emerging States at Crossroads Keiichi Tsunekawa,Yasuyuki Todo,2018-11-30 This book is open access under a CC BY NC ND license This volume analyzes the economic social and political challenges that emerging states confront today Notwithstanding the growing importance of the emerging states in global affairs and governance many problems requiring immediate solutions have emerged at home largely as a consequence of the rapid economic development and associated sociopolitical changes The middle income trap is a major economic challenge faced by emerging states This

volume regards interest coordination for technological upgrading as crucial to avoid the trap and examines how various emerging states are grappling with this challenge by fostering public private cooperation voluntary associations of market players and or social networks Social disparity is another serious problem It is deeply rooted in history in the emerging states such as South Africa and many Latin American countries However income distribution is recently deteriorating even in East Asia that was once praised for its high economic growth with equity Increasing pressure for political opening is another challenge for emerging states This volume argues that the economic social and political problems are interwoven in the sense that the emerging states need to build political consensus in order to tackle the economic and social difficulties Democratic institutions have not always been successful in this respect

Industrial Dynamics in China and India M. Ohara, M. Vijayabaskar, H. Lin, 2011-09-20 This book is one of the first fully fledged studies to examine the next world class industrial leaders emerging from China and India exploring the domestic and international factors that have led to their rise and comparing their experiences with other East Asian late comers such as Japan

China's Automotive Modernization G. Chin, 2010-01-29 As a window for understanding the relationship between globalization and the state's pursuit of national industrial development this book examines how and why the Chinese government succeeded in leveraging China's international competitive advantages to modernize the country's automotive industry
