Assessing APEC's Progress Richard E. Feinberg, Ye Zhao, 2001 In its first ten years what has the Asia Pacific Economic Cooperation APEC accomplished Has the 21 member forum including the United States Japan China Mexico and most of Southeast Asia fulfilled its promise To answer these vital questions leading scholars at APEC Study Centres from thirteen APEC member economies undertook detailed studies of such central issues as trade in services investment policy human resource development food and agriculture energy and financial stability The findings are summarized in a policy report *Learning From Experience* that has received wide praise and close scrutiny from senior government officials The report concludes that APEC has successfully established itself as a world class forum that has contributed to the affirmation of a coherent set of positive ideas However the report notes shortcomings in each of the critical areas of trade and investment liberalization economic and technical cooperation and institutional structure and offers remedial policy recommendations to improve APECs future performance This volume contains both the policy report and the issue studies It is the product of the APEC International Assessment Network APIAN a collaborative independent project among participating APEC Study Centres to track and assess the design and execution of key APEC initiatives

The APEC Model of International Economic Cooperation Julia Lowell, 1998 This paper considers the current and potential economic achievements of the Asia Pacific Economic Cooperation APEC forum in light of its costs to the United States It compares APEC s goals and institutional structure to those of three other multilateral economic institutions the World Trade Organization The European Union and the North American Free Trade Agreement NAFTA It concludes that although limited both in its aims and effectiveness APEC does serve a useful and probably cost effective purpose to the United States

APEC Ippei Yamazawa, 2012 APEC is a crucial trans regional arrangement that draws the US into constructive economic engagement with East Asia This book makes it clear why APEC remains such a crucial element of regional economic architecture and defines an agenda doing forward to which regional leaders should aspire

APEC and

the New Economy Sung-Hoon Park, Mari Pangestu, 2002 **APEC at 20** K Kesavapany, Hank Lim, 2009 Spanning 20 years of history the achievements of APEC may seem uneventful in the eyes of some observers Yet careful deliberation will point to APEC's many remarkable high points as well as some of the challenges The foundations of APEC were set in place about 40 years ago based on the achievements of the Association of Southeast Asian Nations ASEAN and the Pacific Economic Cooperation Council PECC One of the cornerstones of APEC's vision is to achieve a free and open trade area among its member economies This vision is anchored in the Bogor Goals that remain the centrepiece of the APEC process The Bogor Goals represent a cause for celebration as well as angst Celebration because the region has moved towards achieving a much more liberalized environment of trading and investment since 1989 angst because the deadlines for achieving the goals have not yet been fully realized Today APEC embraces many of the world's dynamic developed and developing economies that are better poised to meet the new challenges of this century For those seeking to get a quick sweep of APEC this book recalls reflects and provides enough food for thought on the possible remake of APEC The chapters are carefully written by experts who have been directly involved in the APEC process one way or another The invaluable insights serve to place the whole APEC process in a balanced perspective yet with candid deliberations **APEC** Chia Siow Yue, 1994 Political and academic interest in economic relations among APEC economies and in the APEC process has been gaining momentum The November 1993 Seattle meetings of APEC ministers and leaders marked a turning point for the APEC forum **APEC Challenges and Opportunities** is the result of the First APEC Roundtable held in June 1994 to analyze the issues involved and explore the future direction of APEC Two papers provide the background for the analysis of APEC economic relations and the co-operation agenda one examining security issues in the region and the other the economic dynamism of East Asia The next set of papers trace the evolution of the concept of Asia Pacific economic co-operation examine the APEC process and structure as well as differences in American and Asia approaches and explore the likely institutional structure and appropriate agenda for APEC Also looked into are the trends and patterns of trade and investment interdependence among the APEC countries the various options for regional trade and investment facilitation and the case for an APEC free trade area and an APEC investment code The two final papers examine subsets of the APEC relationships namely the complementary and competitive elements between ASEAN and APEC and between ASEAN and NAFTA **APEC**, 2000* *APEC in the 21st Century* Riyana Miranti, Denis Hew Wei-Yen, 2004 APEC is a unique organization that promotes economic cooperation in the Asia Pacific region It remains an informal intergovernmental organization Examines APEC's accomplishments in recent years and the challenges it faces in the new century
