Moore, 1991 Classrooms and Staffrooms Andy Hargreaves, Peter Woods, 2019-12-16 Originally published in 1984 the articles presented here explore such matters as how teachers maintain order how they treat their pupils and how they cope with pressure they examine the ways in which teachers relate to their colleagues what goes on in staffrooms how they engage in educational debate and what their ambitions are The contributors get to grips with what it is really like to be a teacher to make sense of the everyday rewards and penalties opportunities and problems This is the hallmark of the ethnographic method of educational inquiry It brings to life by close observation and or in depth interview the internal workings of an institution or culture revealing the perspectives of its members their roles and adaptations and making explicit the routine or taken for granted features of institutional life All the papers in the volume are to one degree or another located within this methodological tradition they all begin with what life is actually like for teachers in schools Though they draw on a range of theoretical perspectives from interactionism and ethnomethodology to Marxism and the New Sociology of Education and more besides In this volume the editors bring together examples of some of the most important and influential pieces of work which illustrate the range of material and which have hitherto been spread widely among different research reports academic journals and collections of conference papers Classrooms and Staffrooms provides a fund of quality source materials for initial and in service teachers

Centering Humanism in STEM Education Bryan Dewsbury, Susannah McGowan, Sheila S. Jaswal, Desiree Forsythe, 2024-09-24 Research demonstrates that STEM disciplines perpetuate a history of exclusion particularly for students with marginalized identities This poses problems particularly when science permeates every aspect of contemporary American life Institutions repeated failures to disrupt systemic oppression in STEM has led to a mostly white cisgender and male scientific workforce replete with implicit and or explicit biases Education holds one pathway to disrupt systemic linkages of STEM oppression from society to the classroom Maintaining views on science as inherently objective isolates it from the world in which it is performed STEM education must move beyond the transactional approaches to transformative environments manifesting respect for students social and educational capital We must create a STEM environment in which students with marginalized identities feel respected listened to and valued We must assist students in understanding how their positionality privilege and power both historically and currently impacts their meaning making and understanding of STEM
