

BURNING LOG **turbo 10**

Feel the power of nature's fire with the Burning Log Turbo 10 Hi-Tec 2000

ENERGY CHAMBER

The combination of high temperature, stress resistant heavy duty steel and HIGH MASS furnace quality refractory brick lining, guarantees a lifetime of distortion free firebox operation and heating performance from your Turbo 10. This design concept ensures ongoing low cost heater maintenance and rewards home owners with massive winter energy savings.

FIREBRICK LINING

The firebrick lining promotes "higher" wood fuel efficiency and is a key element in the Turbo 10's "Clean Burn" process.

CLEAR VIEW DOOR

Enjoy the fascination of watching the flickering flames through the large CERAMIC glass panel. A space age material that is tough and heat resistant, its kept clean by an "airwash" flow over it via a primary and secondary air duct cleverly designed into the "energy chamber"

OVER NIGHT BURN

The Turbo 10 will continue to deliver all night gentle warmth on a low setting. Wake up to a warm and cosy home, even during the coldest winter, (up to 10 hours on a full load of hard wood)

BAFFLE PLATE

12mm Heavy Duty plate that is removable for convenient internal firebox and flue cleaning.

COOK TOP

Features large liftout simmer plate, enabling cooking directly on the "hot" firebox.

SIMPLE OPERATION

The Turbo 10 has a single "finger" tip heat/air controller for user friendly operation.

ENERGY SURGE

A second chamber is designed into the top of the ENERGY CHAMBER. Its purpose is to "burn off" hot escaping carbon enriched wood gases before they are lost out the flue. This creates a second stage "HEAT SURGE" resulting in much higher wood fuel efficiency and more convective heat flow through-out your home!
