Rereading Abstract Expressionism, Clement Greenberg and the Cold War Daniel Neofetou, 2021-09-23 Since the 1970s it has been argued that Abstract Expressionism was exhibited abroad by the post war US establishment in an attempt to culturally match and reinforce its newfound economic and military dominance The account of Abstract Expressionism developed by the American critic Clement Greenberg is often identified as central to these efforts However this book rereads Greenberg's account through Theodor Adorno and Maurice Merleau Ponty in order to contend that Greenberg's criticism in fact testifies to how Abstract Expressionism opposes the ends to which it was deployed With reference not only to the most famous artists of the movement but also female artists and artists of colour whom Greenberg himself neglected such as Joan Mitchell and Norman Lewis it is argued that far from reinforcing the capitalist status quo Abstract Expressionism engages corporeal and affective elements of experience dismissed or delegitimated by capitalism and promises a world that would do justice to them **Hans Hofmann: Fury** David Anfam, 2020-02-25 The German born American artist Hans Hofmann 1880-1966 relocated to the United States in 1932 right before the outbreak of World War II In the midst of wartime insecurity he opened schools in both New York and Provincetown immersing himself in America's growing avantgarde art scene The works Hofmann created at the end of WWII and immediately afterward show angular abstractions and personify the uncertainties of

the period At the same time this was also the moment that he moved toward the soft ambiguous forms and gestures that would become the hallmark of the Abstract Expressionist movement a movement that Hofmann presaged Hans Hofmann FURY presents Hofmann s work from 1942 to 1946 While demonstrating Hofmann s development towards abstraction the paintings featured here still reveal a representational quality that nods to his figurative beginnings Linear paintings particularly emphasize this artistic trajectory Primarily known for his expressive use of bold often primary colors Hoffmann here uses a palette of vivid bright colors and contrasting dark tones epitomizing the conflicted postwar feeling Hans Hofmann FURY gives particular insight into an essential moment in Hofmann s career his first solo exhibition in New York in 1944 at Peggy Guggenheim s gallery which Clement Greenberg considered a breakthrough in painterly versus geometric abstraction that heralded abstract expressionism **Pollock and After** Francis Frascina,2000 This revised edition features ten new articles and is fully updated to take account of new critical approaches to post war American art **Expressionism (World of Art)** Colin Rhodes,2025-05-06 A new comprehensive overview of expressionism tracing its evolution from the nineteenth century to the present day Expressionist artists believed in art s ability to communicate emotion irrespective of any representational or narrative content In this comprehensive introduction to one of the most radical artistic movements of our time writer artist curator and educator Colin Rhodes traces the thread of expressionist thought from the nineteenth century to the present day mapping its various manifestations across Europe and the US as well as parts of Africa Asia and South America By paying particular attention to nuanced issues of gender sexuality and cultural appropriation Rhodes challenges the received art historical narrative and reassesses it in the context of broader twentieth and twenty first century artistic practice Generously illustrated the diverse selection of artists featured in this book range from Wassily Kandinsky Erma Bossi Francis Bacon and Mark Rothko to Ursula Schultze Bluhm Gillian Ayres Purvis Young and Jad Fadojutimi
