Colt, Nancy Meyer, 2009-03-20 Before the advent of the widespread use of the internet bullying was confined to school grounds classrooms and backyards Now the virulence of bullying has taken on new meaning as bullies take to the web to intimidate harass embarrass and offend others Through email cell phones text messaging and social networking sites bullies can carry out their bullying in many cases without ever having to confront their victims and often without consequence Whereas the audiences for humiliation in the past was often limited to those who witnessed the bullying and perhaps talked to others about it now bullying takes place in cyberspace where images and audio can be posted online for whole school communities to witness discuss and comment on The social psychological and sometimes economic trauma experienced by victims can be devastating and in some cases cyber bullying has crossed the line and become a criminal act Because just about anyone can be the victim of cyber bullying and because it often goes unreported there are precious few resources available to victims parents teachers and others interested in combatting this new form of bullying This book provides however a thoroughly developed well researched analysis of cyber bullying what it is how it is carried out who is affected and what can and should be done to prevent and control its occurrence in society The book captures the sensational technological and horrific aspects of cyber bullying while balancing these with discussion from perspectives about social computing various academic disciplines possibilities for public policy and legislation formulation education and crime prevention strategies Using case examples throughout readers will come away with a new sense of indignation for the victims and a better understanding of the growing problem and how to combat it *Billy's Tenth Birthday* James Minter, 2015-04-09 Billy is a child entering young adulthood who is trying to make sense of his environment What underlies Billy's journey as with all children are the values he will adopt Values provide us with the basis upon which we assess the usefulness of what we are told and how to react to situations we experience In short they give us tools we need to forge a path through life The Life Lessons Series was written to help children form positive values that will serve them at this stage in their lives By using the power of traditional storytelling to illustrate guide and shape their understanding in a safe environment this book will aid your child's understanding of bullying Unfortunately bullying is a major problem for children today but it is also part of learning to stand up for oneself In this story Billy is looking forward to a big birthday However the local bullies hear he has been given a twenty pound note as a present and challenge him to hand it over Billy realises he cannot fight the gang so he has to agree to their demands At first Billy does not dare tell a grown up as he feels guilty about losing it Billy and his friend Ant try to hatch a plan to get it back But it's not until Maxine Ant's sister hears about the problem that she realises an adult needs to be involved Grandad who does party magic is the ideal person to retrieve it Disarming a bully is the best way to deal with them You cannot rid the world of bullies but you can do something about the way you deal with them In the home this book can act as an ice breaker allowing parents guardians grandparents to raise the
