Improving Teaching, Learning, Equity, and Success in Gateway Courses Andrew K. Koch, 2018-01-22 As long as there have been U S colleges and universities there have been entry courses that pose difficulties for students courses that have served more as weeding out rather than gearing up experiences for undergraduates This volume makes the case that the weed out dynamic is no longer acceptable if it ever was Contemporary postsecondary education is characterized by vastly expanded access for historically underserved populations of students and this new level of access is coupled with increased scrutiny of retention and graduation outcomes Chapters in this volume define and explore issues in gateway courses and provide various examples of how to improve teaching learning and outcomes in these foundational components of the undergraduate experience This is the 180th volume of the Jossey Bass quarterly report series New Directions for Higher Education Addressed to presidents vice presidents deans and other higher education decision makers on all kinds of campuses it provides timely information and authoritative advice about major issues and administrative problems confronting every institution *Handbook of College Science Teaching* Joel J. Mintzes, 2006 The Handbook offers models of teaching and learning that go beyond the typical lecture laboratory format and provides rationales for new practices in the college classroom It is ideal for graduate teaching assistants senior faculty and graduate coordinators and mid career professors in search of reinvigoration **College and University**, 1983 Includes proceedings of the association's annual convention
