LGBTQAI+ Books for Children and Teens Christina Dorr, Liz Deskins, 2018-12-18 There is a rich and varied body of literature for lesbian, gay, bisexual, transgender, queer, questioning, asexual, allied, and intersexed young people which can function as a mirror for LGBTQAI individuals and as a window for others. This resource for librarians who work with children and teens not only surveys the best in LGBTQAI lit but just as importantly offers guidance on how to share it in ways that encourage understanding and acceptance among parents, school administrators, and the wider community. Helping to fill a gap in serving this population, this guide discusses the path to marriage equality, how LGBTQAI terms have changed, and reasons to share LGBTQAI literature with all children. Presents annotated entries for a cross section of the best LGBTQAI lit and nonfiction for young children, middle year students, and teens, with discussion questions and tips. Offers advice on sensitive issues such as starting conversations with young people, outreach to stakeholders, and dealing with objections and censorship. Head on and ideas for programming and marketing. This resource gives school librarians, children's and YA librarians the guidance and tools they need to confidently share these books with the patrons they support. **The Epistolary**

Renaissance Maria Löschnigg, Rebekka Schuh, 2018-09-10 Since the late twentieth century, letters in literature have seen a remarkable renaissance. The prominence of letters in recent fiction is due in part to the rediscovery by contemporary writers of letters as an effective tool for rendering aspects of historicity, liminality, marginalization, and the expression of subjectivity vis-à-vis an other. It is also due, however, to the artistically challenging inclusion of the new electronic media of communication into fiction. While studies of epistolary fiction have so far concentrated on the eighteenth century and on thematic concerns, this volume charts the epistolary renaissance in recent literature, entering new territory by also focusing on the aesthetic implications of the epistolary mode. In particular, the essays in this volume illuminate the potential of the epistolary, including digital forms for rendering contemporary sensitivities. The volume thus offers a comprehensive assessment of letter narratives in contemporary literature. Through its focus on the aesthetic and structural aspects of new epistolary fiction, the inclusion of various narrative forms, and the consideration of both conventional letters and their new digital kindred, *The Epistolary Renaissance* offers novel insight into a multi-faceted re/new ed genre. **Social Reading Cultures on BookTube, Bookstagram, and BookTok**

Bronwyn Reddan, Leonie Rutherford, Amy Schoonens, Michael Dezuanni, 2024-04-30 This book examines the reading cultures developed by communities of readers and book lovers on BookTube, Bookstagram, and BookTok as an increasingly important influence on contemporary book and literary culture. It explores how the affordances of social media platforms invite readers to participate in social reading communities and engage in creative and curatorial practices that express their identity as readers and book lovers. The interdisciplinary team of authors argue that by creating new opportunities for readers to engage in social reading practices, bookish social media has elevated the agency and visibility of

readers and book consumers within literary culture It has also reshaped the cultural and economic dynamics of book recommendations by creating a space in which different actors are able to form an identity as mediators of reading culture Concise and accessible this introduction to an increasingly central set of literary practices is essential reading for students and scholars of literature sociology media and cultural studies as well as teachers and professionals in the book and library industries
