A New Century for Natural Resources Management Richard L. Knight, Sarah F. Bates, 1995-03 This book explores the changes that are leading to a new century of natural resources management It places the current situation in historical perspective analyzes the forces that are propelling change and describes and examines the specific changes in goals policy and practice that are transforming all aspects of natural resources management The book is an important overview for wildlife biologists foresters and others working for public land agencies professors and students of natural resources and all those whose livelihood depends on the use of public natural resources

A New Century for Natural Resources Management Richard L. Knight, Sarah F. Bates, 1995-03 This book explores the changes that are leading to a new century of natural resources management It places the current situation in historical perspective analyzes the forces that are propelling change and describes and examines the specific changes in goals policy and practice that are transforming all aspects of natural resources management The book is an important overview for wildlife biologists foresters and others working for public land agencies professors and students of natural resources and all those whose livelihood depends on the use of public natural resources

Land Stewardship in the 21st Century, 2000 [Toxic Waste and Environmental Policy in the 21st Century United States](#) Dianne Rahm, 2017-08-24 A major problem confronting the United States in the 21st century is the 20th century's legacy of toxic waste The weapons that fought the Cold War the facilities that manufactured those weapons and the factories that fueled a prosperous economy left behind a trail of pollution Seven previously unpublished essays examine the problem of toxic waste in the United States what is being done about it and what should be done about it W Henry Lambright and Agnes Gereben Schaefer Dianne Rahm Sevim Ahmedov Charles Davis Robert A Simons and Kimberly Winson Santa Falcone and Toddi A Steelman and JoAnn Carmin write about such issues as community based environmental management regional EPA offices and the regulation of hazardous wastes brownfields nuclear and chemical weapons destruction environmental contamination and the nuclear weapons complex the privatization of nuclear waste clean up and WIPP Yucca and hazardous waste transport The future of humanity demands careful thought about these matters Instructors considering this book for use in a course may request an examination copy here

National Parks for the 21st Century United States. National Park Service, 1993 **Park Science**, 1998 [Sustainable Resource Development in the 21st Century](#) David Zilberman, Jeffrey M. Perloff, Cyndi Spindell Berck, 2023-11-14 This is an open access book This edited volume discusses topics in environmental economics with a focus on sustainability conservation and responsible resource management Written in memory of Peter Berck Professor of Agricultural and Resource Economics at the University of California Berkeley the chapters expand upon his insights about the connections between human activities and the natural world The volume includes a selection of research on agriculture energy forestry fisheries land use recycling and conservation all parts of the broad question of how natural resources can meet human needs while avoiding environmental

degradation Written from a 21st century perspective with concerns about climate renewable energy biodiversity and sustainable development this volume will be of interest to researchers and students of agricultural and resource economics

Modernizing Indian Agriculture in 21st Century B. S. Hansra,G. Perumal,K. Chandrakandan,2001 Contributed articles Conservation for a New Generation Richard L. Knight,Courtney White,2009 Conservation for a New Generation highlights the dynamic state of how natural resources management is being practiced in the United States today as it transitions from top down programs and federal mandates to a largely bottom up approach that involves a broad range of stakeholders working together to achieve common goals The book considers the implications of those changes for future conservation efforts and offers a conceptual blueprint for effective conservation that can guide students and practitioners both now and into the future **Freshwater Governance for the 21st Century** Eiman Karar,2016-10-24 The objective of this book is to broadly illustrate the key aspects of water governance mapping the spectrum of decision making from techno centric and eco centric approaches to hybrid concepts and people centric approaches Topics covered include the challenges for water governance models the polycentric model the integration challenge water in the decision making hierarchy and the rise of water sensitive design while also taking into account interdependencies between stakeholders as well as the issue of scale The book s content is presented in an integrated and comprehensive format building on detailed case studies from around the world and the authors working experiences in the water sector Combining essential insights with accessible non technical language it offers a valuable resource for academics technicians and policy makers alike
