A Disturbance in the Force Steve Kozak, 2023-11-15 Bea Arthur as the owner of the Mos Eisley Cantina Long scenes entirely of Wookies bleating at each other without subtitles Harvey Korman in drag as a four armed Space Julia Child Six minutes of Jefferson Starship performing for Art Carney and a bored Imperial Guard Mark Hamill fresh from his near fatal motorcycle accident slathered in pancake makeup A salacious holographic burlesque from Diahann Carroll Even by the standards of the 1970s even compared to Jar Jar Binks the legendary 1978 Star Wars Holiday Special is a peerlessly cringeworthy pop culture artifact George Lucas who completely disowned the production reportedly has said If I had the time and a sledgehammer I would track down every copy of that show and smash it Just how on earth did this thing ever see the light of day To answer that question as Steven Kozak shows in this fascinating and often hilarious inside look into the making of the Special you have to understand the cultural moment in which it appeared a long long time ago when cheesy variety shows were a staple of network television and Star Wars was not yet the billion dollar multimedia behemoth that it is today Kozak explains how the Special was one piece of a PR blitz undertaken by Lucas and his colleagues as they sought to protect the emerging franchise from hostile studio executives He shows how despite the involvement of some of the most talented people in the business creative differences between movie and television writers led to a wildly uneven product He gives entertaining accounts of the problems that plagued production which included a ruinously expensive cantina set the acrimonious departure of the director and Lucas himself and a furious Grace Slick just out of rehab demanding to be included in the production Packed with memorable anecdotes drawing on extensive new interviews with countless people involved in the production and told with mingled affection and bewilderment this never before told story gives a fascinating look at a strange moment in pop culture history that remains an object of fascination even today *Analyzing Narratives in Social Networks* Zvi Lotker, 2021-08-28 This book uses literature as a wrench to pry open social networks and to ask different questions than have been asked about social networks previously The book emphasizes the story telling aspect of social networks as well as the connection between narrative and social networks by incorporating narrative dynamic networks and time Thus it constructs a bridge between literature digital humanities and social networks This book is a pioneering work

that attempts to express social and philosophic constructs in mathematical terms The material used to test the algorithms is texts intended for performance such as plays film scripts and radio plays mathematical representations of the texts or literature networks are then used to analyze the social networks found in the respective texts By using literature networks and their accompanying narratives along with their supporting analyses this book allows for a novel approach to social network analysis
