Political Theology of the Earth Catherine Keller, 2018-10-30 Amid melting glaciers rising waters and spreading droughts Earth has ceased to tolerate our pretense of mastery over it But how can we confront climate change when political crises keep exploding in the present Noted ecotheologian and feminist philosopher of religion Catherine Keller reads the feedback loop of political and ecological depredation as secularized apocalypse Carl Schmitt s political theology of the sovereign exception sheds light on present ideological warfare racial ethnic economic and sexual conflict and hubristic anthropocentrism If the politics of exceptionalism are theological in origin she asks should we not enlist the world s religious communities as part of the resistance Keller calls for dissolving the opposition between the religious and the secular in favor of a broad planetary movement for social and ecological justice When we are confronted by populist authoritarian right wings founded on white male Christian supremacism we can counter with a messianically charged often unspoken theology of the now moment calling for a complex new public Such a political theology of the earth activates the world s entangled populations joined in solidarity and committed to revolutionary solutions to the entwined crises of the Anthropocene T&T Clark Handbook of Christian Theology and Climate Change Hilda P. Koster, Ernst M. Conradie, 2019-12-12 The T these essays are critically engaged by respondents situated in other geographic regions minority communities non Christian traditions or non theological disciplines Structured in seven main parts the handbook explores 1 the need for collaboration with disciplines outside of Christian theology to address climate change 2 the need to find common moral ground for such collaboration 3 the difficulties posed by collaborating with other Christian traditions from within 4 the questions that emerge from such collaboration for understanding the story of God s work and 5 God s identity and character 6 the implications of such collaboration for ecclesial praxis and 7 concluding reflections examining whether this volume does justice to issues of race gender class other animals religious diversity geographical divides and carbon mitigation This rich ecumenical cross cultural conversation provides a comprehensive and in depth engagement with the theological and moral challenges raised by anthropogenic climate change The Political Theology of Pope Francis Ole Jakob Løland, 2022-12-30 This book explores the political dimension of Pope Francis theology from a variety of perspectives and makes a unique contribution to the ongoing historiography of his pontificate It defines the concept of political theology when applied to Pope Francis discourse and reflects on the portrayal of him as the voice of Latin America a great reformer and a revolutionary The chapters offer a
